WISEME

About the project

The WiseMe project is dedicated to advancing a high-performing digital education ecosystem, by building capacity and a critical understanding of how to exploit the opportunities offered by digital technologies for teaching and learning at all levels.

The project focuses on developing both fundamental and advanced digital skills, as well as digital literacy, which are crucial for everyday life. This includes enabling individuals to effectively navigate a world driven by algorithms and to actively participate in civil society and democracy

Target groups

- Secondary education teachers
- Secondary education students (12-17 years old)
- Educational institutions, families with secondary school children, and organizations responsible for youth development

WiseMe objectives

• Provide training resources for teachers to understand and teach the detection of fake news, through the educational use of social networks, and improve digital competencies.

• Develop two digital tools (platform and game) for training and educational resources.

• Design educational resources so that teachers can implement actions in the classroom

Kick-Off meeting in Madrid

Celebrating the Success of the WiseMe Project Kick-Off Meeting in Madrid!

We're excited to highlight the successful Kick-Off Transnational Project Management Meeting for WiseMe, hosted by Nebrija Universidad in Madrid. This event marked the start of our collaborative journey to enhance digital education across Europe.

The meeting showcased the dedication of all partners, sparking innovative ideas and setting the stage for future activities. We explored strategies to tackle fake news and brainstormed new digital tools for classrooms.

Upcoming Highlights:

Project Management: Focused on smooth coordination to achieve our goals.

Teacher Training: Developing programs to help educators manage disinformation and use social media effectively.

Website Launch: Soon unveiling a central platform for resources and updates.

EduBot Development: Introducing EduBot, a tool to enhance access to educational resources.

Project results

- **Result 1:** Tools for the management of fake news
- **Result 3:** Teacher's Manual and Educational Platform
- **Result 4: Educational Bot**
